FOR SALE

Eastport Pram

Rowing/Sailing/Motoring

PRICE: \$3,500 (includes brand new 2.5hp outboard, sail, oars, and boat cover)

INVENTORY: Donated to Compass Project in June 2016, available now

DESIGNER: Chesapeake Light Craft

SPECS: Length overall 7'9" : Beam 48" : Draft dagger board up 5" : Dagger board down 25"

Designed Hull Weight 65lbs + - : Capacity 375lbs : Sail area 42 sf

The Eastport Pram has deep rocker for low wetted surface and to keep the transoms from dragging. The result is a boat that is as easy and satisfying to row as you can expect on such a short waterline. Used as a tender to a larger boat, or kept at a dock, it's possible to undertake a long afternoon row around the local waters without breaking a sweat. This is the perfect craft in which to learn to sail, whether the crew is age 8 or 80. The large standing-lug sail and efficient rudder and daggerboard convert the pram into a proper sailboat with enough real performance, upwind and down, to keep the most seasoned sailors interested
